AMERICAN EDITORS IN EDMONTON

A large party of American editors, who are touring the Canadian west, arrived in Edmonton last night in their own special cars. They are accompanied by prominent government and C. P. R. officials, and also by several Canadian newspapermen. C. V. Gutter, Dominion immigration agent here, has charge of the party in Edmonton. The object of the tour is to get an actual personal knowledge of the resources and possibilities of western Canada for their own private information and for the information of the numerous readers of the papers they represent. It is unnecessary to mention the great good that will positively result from this visit, for no person can take a trip through the country at the present time without becoming greatly impressed by the evidences of abundant prosperity which meet one on every side. A partial list of the visitors is:

T. D. Harman, National Stockman and Farmer, Pittsburg, Pa.
C. E. Everett, Wisconsin Agriculturist, Racine, Wis.
E. W. Chandler and H. E. Thurston, Farmers Review, Chicago, Ill.
C. A. Shanley, Orange Judd Farmer, Chicago, Ill.
C. H. Haubold, American Agriculturist, Chicago, Ill.

H. E. Heath, Nebraska Farmer, Omaha, Nebraska.
Arthur B. Brightman.

ALBERTA CONSTITUENCIES

The redistribution committee has definitely laid down the boundaries of the four constituencies of Alberta, viz: Edmonton, Strathcona, Calgary and Alberta. Alberta includes all of the district of Alberta south of and including Township 17. Calgary will be bounded on the north by a line between Townships 31 and 35. Strathcona will have as its northern boundary the Saskatchewan river to a point east of the town of Strathcona and from thence the line between Townships 31 and 35. Edmonton includes all of the remaining portion of Alberta. The districts of Calgary, Strathcona and Edmonton extend into Saskatchewan to the line between Ranges 25 and 26 west of the third meridian.

In a few years the Doukhobors will have the finest horses to be found in the country.

It was decided to celebrate the 15th of July at Strathcona and Edmonton on Monday, July 13th. Particulars of which will be given later. The annual meeting will be held at Edmonton on the second Tuesday in February.

EDMONTON METHODIST COLLEGE

The following clipping from the Free Press report of the Methodist Conference in Winnipeg, deals with a subject which is of great interest to Edmonton.

Mr. H. C. Taylor, Edmonton, presented the report of the committee on the proposed Edmonton college. An amendment was passed requesting Dr. Spurling to visit Edmonton, and, if deemed advisable, to take steps to organize a college. An advisory committee was appointed consisting of Dr. Spurling, Dr. Stewart, Prof. Riddell, Messrs. J. A. B. Aikins, J. H. Ashdown and Dr. Woodworth, to a local committee at Edmonton composed of Messrs. T. C. Buchanan, Dr. McDonald and the chairmen of the Red Deer, Calgary and Edmonton districts.

EDMONTON INDUSTRIAL EXHIBITION

Entries for the Edmonton Industrial Exhibition are pouring in. Exhibitors should see to it that all entries are in before the end of next week and as soon before as possible. All indications go to confirm the opinion of the exhibition management, that this year's fair will be a huge success. C. Jardine has lately returned from a trip along the Calgary and Edmonton railway, where he was posting advertising notices about our summer fair. He says that in every place along the line the greatest interest is being taken in the Edmonton Exhibition. Large crowds will be present from every place. It all rests with the weather now and if we get good weather the success of the exhibition is a foregone conclusion.

ALBERTA WEATHER AND CROPS

The latest news from British Columbia confirms former reports of disastrous floods. It is expected that the entire lower valley of the Fraser will be flooded which will mean the ruin of thousands of settlers. From Ontario and Quebec come reports of an exactly opposite nature. Eastern Canada is suffering from drought and a pitiable state of affairs exists. Vegetation is drying up and the fruit blossoms not developing as they should. The hay crop is practically ruined and the grain will be very light. To the south of us in the western States, the most calamitous floods are being experienced. They have caused in some places the destruction of millions of dollars worth of property. Whole sections of the country have been inundated with loss of life as well as loss of property. Coming nearer home, western Canada is enjoying a season of unequalled prosperity. Crops are looking splendid and there is all possible indication of a record breaking harvest. In Alberta the most westerly part of the Territories a similar state of affairs exists and coming to the Edmonton district, we find nature at her best and best. The country is smiling from the recent rain and the crops are fairly bounding along. The growing grain may not be as many inches high as the grain in Manitoba, but from now on, grain in northern Alberta will grow as much in two weeks as Manitoba grain in three. This is a well known fact, definitely proved by careful observation. The season here so far has been just what we needed. On the whole it was dry with just sufficient rain to give the needed impetus to growth. From every part of the Edmonton district come the same reports of excellent crop prospects. The acreage under crop is roughly estimated to be thirty per cent higher than last year. The acreage under oats, however, has not increased, thirty per cent, as in older settled sections more wheat and barley have been sown. Northern Alberta is certainly enjoying a period of unequalled prosperity. Our people are happy, and contented and how could they be otherwise with the heritage that is spread about our doors. The country is one of remarkable fertility and of equable climatic conditions. We dread neither flood nor drought and live secure in the assurance of obtaining a large harvest, provided we do our part. The ground must be well cultivated and the grain sown as early as possible. Barring an accident Northern Alberta, and in fact all western Canada, will have a glorious harvest, which will carry the country up to a notch of prosperity from which it can never recede.

MILLET

Mr. Muller is very busy shipping fence poles, having already shipped 22 carloads to Calgary.

Millet is still retaining its boom and building is constantly going up and settlers arriving daily.

West and Nickelsteel's new store is completed and business is brisk.

Mrs. J. Johnson with her daughter arrived home from New York, and is again running the hotel.

Mr. and Mrs. E. Elder have moved into their new house.

Mr. William Connolly, formerly a storekeeper here, has purchased the dairy business of J. Peterson and will fit the business out with new rigs and goods and will be open to do all kinds of freight, etc.

Mr. William Peterson of Edmonton, has started a planing mill here to put the finishing touches to the lumber he

sawed all through the winter, which is in great demand.

The farmers report the crops the best they have seen, the soil being just the thing for the dry summer we are having. The roads are in splendid condition.

We are badly in need of the new station, the C. P. R. promised us as soon as the frost left the ground. We would like to inform the C. P. R. that the road has been out for four months.

Mr. and Mrs. J. A. Barrie have moved into their new house.

Millet will have a picnic and sports on the 27th of June. There will be a football match between Leduc and Millet; horse racing and other games too numerous to mention, and last, but not least, plenty of refreshments, including ice-cream and lemonade. The picnic grounds are lovely and a great time is anticipated, if the weather permits.

The flowers are showing their pretty colors and the blossoms on the berry bushes are plentiful. If no frost destroys them there will be berries in abundance.

WEST BEAVER LAKE

Crops looking well.
 Last year we had approximately forty thousand bushels of grain in this immediate district. This year, if nothing happens, we will have seventy-five thousand bushels.
 Preparations are under way for the first of July celebration of West Beaver Lake to be held at Tofield. About one hundred dollars in prizes will be given. A magnificent national flag has been received from the Oshkosh Manufacturing Company, which will be used to grace the occasion. The Oshkosh Manufacturing Company noticed an expression of regret a year ago in correspondence from this point that no national flag was present at the last Dominion Day celebration, and through the Bulletin they sent this flag as a gift to be used by us.
 Wire fences are taking the place of the old rail fences that for years have been the regular method of enclosing the farms of the settlers. Frame buildings are replacing the old log structures that for years have been the kind of habitations.
